

STORMWATER

Water from rainfall or snow that runs off surfaces like rooftops, paved streets, and parking lots. It does not soak into the ground and instead flows to another location like storm drains or waterways.

POLLUTANTS

Something that harms the water, land, or air and makes it dirty or unsafe to use.

OBSERVATION

Seeing or noticing something. Paying close attention to the world around you by using your senses - sight, smell, hearing touch, or taste.
